

WINDOWCRAFTERS

Factory - Direct Vinyl Windows
Built Locally in Atlanta, Georgia

Windowcrafters simplifies the process of buying windows. For more than four decades, we've manufactured premium vinyl windows in Tucker, Georgia, eliminating the middleman and selling Factory Direct. We combine in-house glass production, transparent pricing, and dependable service, all of which make your project easier to manage. Contractors, remodelers, property managers, multi-family developers, and homeowners rely on us for windows that are built to fit, designed to perform, and delivered on time—without the delays and markups.

700 SERIES

DOUBLE-HUNG VINYL REPLACEMENT AND NEW CONSTRUCTION WINDOWS

The 700 Series windows are energy efficient and manufactured with high-performance Cardinal LoE glass. LoE-270 is standard, and LoE-366 is available as an upgrade for enhanced solar control and UV protection. All windows feature Duraseal® warm-edge spacer systems, engineered to improve insulated glass performance and long-term durability. They are made from high-quality vinyl that resists fading and won't chip or peel. They feature a narrow, beveled-edge exterior frame with low-profile sashes for an attractive appearance. Combining beauty, exceptional value, and low-maintenance by design for both new construction and home renovations. The 700 Series is a dependable solution for any project, and it is backed by a Limited Lifetime Warranty.

AVAILABLE STYLES

Double-hung, 2-lite slider, 3-lite slider, picture windows, deadlites.

FRAME

Constructed from rigid PVC vinyl with a 3 1/4" frame, this window features a multi-chambered frame with insulating air pockets for enhanced thermal performance. Fusion-welded sash and frame ensure lasting strength and a true, square fit in the rough opening.

Available for both replacement and new construction. A pre-punched nailing fin simplifies installation, and built in sloped sill drains water. An integrated accessory grooves provide a clean, secure fit for attachments.

GLASS

Every Windowcrafters window comes standard with Cardinal 270 LoE glass and Duraseal® warm-edge spacer systems. This combination reduces radiant heat, improves efficiency, and provides long-term performance of the insulated glass unit.

BALANCE

A premium constant force balance helps the window open and close smoothly while keeping the sash in place at any height. This provides consistent tension, preventing sudden drops.

COLORS

White and Tan

	LoE-270/argon Duraseal	LoE-366/argon Duralite®
U-Factor	0.29 ufactor	0.27 ufactor
SHGC (no grids)	0.28 shgc	0.21 shgc
Air Infiltration	≤ 0.30 cfm/ft ²	≤ 0.30 cfm/ft ²

Design Pressure: DP 35

Water Resistance: No leakage at 5.25 PSI

AAMA Certified Forced Entry: Passed: configuration is based on no grids

900 SERIES

SINGLE-HUNG VINYL WINDOWS NEW CONSTRUCTION AND REPLACEMENT

The 900 Series is our most-popular window. Bottom sash opens and tilts in for cleaning. Top sash is fixed. Works for both new construction and replacement projects. Every 900 Series window is manufactured with high-performance Cardinal LoE glass and Duraseal® warm-edge spacer systems, engineered to enhance insulated-glass performance and long-term durability.

For new builds, the 900 Series includes a classic brickmold exterior profile, j-channel, and nail fin. It goes in clean with no extra framing.

For replacement, it can be configured to fit your existing opening.

AVAILABLE STYLES

Single-hung, 2-lite slider, 3-lite slider, picture windows, deadlites, custom shapes.

FRAME

Constructed from rigid PVC vinyl with a 2 7/8" frame, this window features a multi-chambered frame with insulating air pockets. Fusion-welded sash and frame ensure lasting strength and a true, square fit in the rough opening.

With a versatile brickmold look exterior, this comes in replacement and new construction. A pre-punched nailing fin simplifies installation and built-in sloped sill drains water.

GLASS

Every Windowcrafters window comes standard with Cardinal 270 LoE glass and Duraseal® warm-edge spacer systems. This combination reduces radiant heat, improves efficiency, and provides long-term performance of the insulated glass unit.

BALANCE

Premium inverted balance system. Composite tilt latch. Dual weather-stripping on sash.

SPECIALTY WINDOWS

MORE STYLES. MORE CHOICES.
SAME DEPENDABLE COMPANY.

Our role is simple: be the partner you can count on. We build vinyl windows at our factory in Tucker, Georgia, but we also know that, from time to time, your project may require other types of windows. We are still here to help with product selection from a full portfolio of specialty projects to meet most project needs.

BLACK WINDOWS — THRUBLACK BY VIWINTECH

We supply black windows through ViWinTech's ThruBlack line. These are built on their 1150 Series window using a through-color vinyl compound, meaning the black goes all the way through the material. It is not a laminate. It is not paint. Interior and exterior are both black.

TWO-TONE WINDOWS

Interior in white or tan. Exterior in a contrasting color. Common for homes where interior trim needs to stay light, but the exterior finish calls for something different.

CELLULAR PVC UNITS, SHAPES AND SASH KITS

Supplied through Precision Millworks. Sash kits and full composite replacement units are available for historic properties or projects that require a wood appearance.

CUSTOM SHAPES

half round, eyebrows, ellipse, trapezoids and other shapes. Integrated into our standard frame systems.

EXTERIOR DOORS

FIBERGLASS AND STEEL ENTRY DOORS AND VINYL SLIDERS

We offer the full line of Thermatru Entry Doors and VinWinTech traditional and multi-panel sliding glass doors.

AVAILABLE:

Traditional doors are available in smooth steel and smooth or wood-grain fiberglass, in single, double, and multi-panel styles for your front door and secondary doors. We also have White, tan, clay, black, and bronze traditional vinyl sliding glass doors in standard and custom sizes, as well as multi-panel and bypass doors. All doors are sized for your home.

Whether you're a homeowner refreshing the front of your home or a contractor selecting a door for a renovation, Windowcrafters is ready to help. We offer exterior doors in materials-only or a full-service package with professional installation.

LEAD TIME

Some options available in as little as two weeks.

ABOUT WINDOWCRAFTERS

BUILT IN TUCKER. SERVING GEORGIA.

Windowcrafters has manufactured vinyl windows in Tucker, Georgia, since 1984. More than 45 years of building windows for Atlanta homes, apartment projects, new builds, and renovations.

Our windows are manufactured at 2033 Tucker Industrial Road. Insulated Glass Units are built in-house. Screens are built in-house and Made in America! You are buying Factory Direct!

WHAT IS FACTORY-DIRECT?

Factory direct means working directly with the manufacturer – eliminating the middleman and simplifying your entire project. There are no added markups, no layers of communication, and no unnecessary delays.

At Windowcrafters, you work directly with the team that builds your windows. For over 45 years, we've been manufacturing high-quality, affordable vinyl windows in Tucker, Georgia, tailored to your exact specifications.

Being local makes a difference. It means lower prices, faster service, shorter lead times, direct access to our team, convenient pickup options, and solutions that keep your project moving – today, not weeks from now.

WHO WE SERVE

Homeowners, contractors and builders, property managers, handyman, glass companies, investors, multifamily projects, building supply, and glass companies.

TURNKEY INSTALLATION. SIMPLE PROCESS.

Windowcrafters offers a full-service, turnkey division designed to make your project seamless from start to finish. Just like our manufacturing process, our focus is on making your experience easy,

Here's how it works:

- 1. In-Home Consultation:** A Windowcrafters representative meets with you to understand your goals, style, and budget, helping you select the right windows for your home.
- 2. Field Verification:** Our installation team lead visits your home to verify measurements and assess site conditions, ensuring a precise fit and smooth installation.
- 3. Custom Manufacturing:** Your windows are built locally to your exact specifications, with quality you can trust.
- 4. Professional Installation:** Our experienced installation team completes the project with care, efficiency, and attention to detail.
- 5. Ongoing Support:** Your investment is backed by Windowcrafters' commitment to quality, service, and long-term customer support.

FACTORY DIRECT. NO MIDDLEMAN

INSULATED GLASS SOLUTIONS BUILT FOR GLASS PROFESSIONALS

At Windowcrafters, we work with glass companies every day – so we understand the realities of field replacements, tight timelines, and jobsite constraints.

Fast Turnaround Keeps You Moving!

Our insulated glass units are produced in less than a week, giving you the speed and reliability needed to keep your project moving without delays.

We fabricate your IG units to specification – so your team can install with confidence and avoid costly issues.

With in-house manufacturing and a focus on efficiency, we deliver reliable quality, quick lead times, and pricing that works for your business.

From small replacements to large-scale projects, we provide the products and turnaround you need to stay competitive.

WE OFFER A RANGE OF INSULATED GLASS OPTIONS:

- 5/8" IG Units with Grids
- Single and Double Strength Glass
- Clear and LoE
- 7/16" & 1/2" IG Units (No Grids)

For over 45 years, Windowcrafters has been built on one principle: when our partners succeed, we succeed. We deliver high-quality, affordable vinyl windows – manufactured locally in Tucker, Georgia – because we know that your reputation depends on the products and people you work with. That's a responsibility we take seriously.

We make that possible by selling factory-direct, cutting out the middleman so you get better pricing and faster service. Our in-house insulated glass production means tighter quality control and quicker turnaround – so you're never left waiting on a window to close out a job. And when we commit to a timeline, we stick to it.

Our partners trust us because we understand what's at stake on every job. We keep communication clear, timelines dependable, and problems solved before they slow you down – so you can focus on the work, not on chasing your window supplier.

Contractors, remodelers, multi-family developers, and property owners partner with Windowcrafters because

we speak their language. With decades of hands-on experience in construction and remodeling, we understand the pressures you face – tight schedules, tight margins, and clients who expect everything to go right.

Our role is simple: be the partner you can count on. From product selection to on-time delivery and hands-on support, we're invested in your success on every project – not just the first one.

At Windowcrafters, we don't just supply windows – we build lasting partnerships.
WHEN YOU WIN, WE WIN. LET'S GET TO WORK.
